photo enlarged

RARE AND UNLISTED HARD TIMES STORECARD.  
Obverse of Low 115/ reverse of Low 37. Very Good/Fine.  
This is the discovery piece which has recently received so

much attention in the numismatic press. This attention is well deserved. Hard Times tokens are perhaps the most studied area in exonomia and for this token to go undiscovered for so many years is an attestation to its great rarity. This is a unique opportunity for the specialist to add to his collection. Within the means of his pocket-book, price should be no object as this may be the only opportunity ever to obtain this great rarity.

34. Low 126. Nice Extra Fine.

35. Low 127. Nice brown Extra Fine.

36. Low 129. Very Fine with the usual light field marks on a token of this grade. Scarce Roxbury Coach token.

37. Low 123. VF/XF with minor field marks.

38. Low 135. Extra Fine. Minor verdigris within the letters. Sharply struck.

39. Low 138. Large ornament variety. VF/XF.

40. Low 143. Extra Fine. Nice even brown color. NB that the central devices of this token are never fully struck (\$150).

41. Low 148. Nice AU. Struck with the typical heavily broken die (\$300).

42.

Low 156. Fine/Very Fine. The left side is weakly struck as usual (\$900).

43.

Low 162. Fine/Very Fine. This token is typically found with a dark corroded appearance (\$400).

44. Low 163. F/VF for the token. Typically found dark and with TOKEN not fully struck up on the reverse (\$400).

45. Low 172. Sharply struck AU with some lustre. Rare in this condition.

46. Low 190. Nice evenly worn Fine.

47.

Low 190. Sharp AU with lustre. Rare in this high grade (\$600).

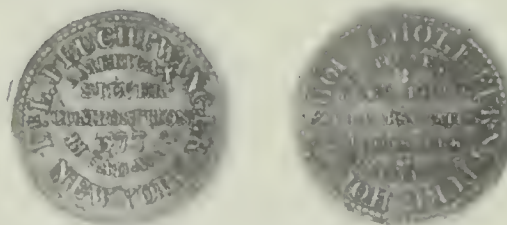

48. Low 192. Choice lustrous AU. WE struck up on the reverse and so quite unusual.

49.

Low 207, NY 51. BALE & SMITH. Difficult to grade because the token is so weakly struck in parts. Both obverse and reverse have been double struck. The bottom of the obverse and the top of the reverse are weak but still visible. We would grade the struck up portions F/VF. This is a typical strike for this token. Extremely rare and seldom offered. Certain to break into four figures.

50.

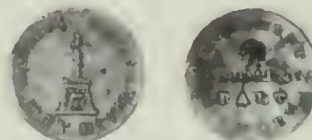

Low 247, NY 240. DR. L. FEUCHTWANGER. Very Fine. Small edge clip at 2:30. Old an minor reverse field scratches do not really detract. The Garrett specimen, in choice uncirculated, brought \$6,000.00. We estimate this piece to bring \$2,500.00.

51. Low 172, NY 1049. PECK'S. XF with small area of the reverse appearing pock-marked due to a defective planchet.

52. Low 174, NY 746. ROBERT RUGGLES. Extra Fine.

55. Low 6. Obverse VF, reverse F. Scarce (\$300).

65. Md. 83. A. KNIGHT (See TCP p.55). VF with usual field marks and a tiny edge clip (\$75).

66. Md. 159. ROBERT SOULSBY. Obverse XF. Reverse is F/VF. Duffield dates this piece as 1839-1846 which places it in the Hard Times period. A sleeper! (\$150).

67. Mass 84. HORACE PORTER & CO. AU. A rare Boston storecard which is much underrated by Miller. The first we have seen. Choice AU. The planchet is not silvered.

69.

S. KENNEDY

70. NY 172, Baker 529. R&B Unc. CHARLES CURTIS. Popular Washington storecard.

71. NY 629. PARMELEE WEBSTER & CO. Gem Uncirculated. U.S. Grant obverse. Scarce and underrated.

72.

## ONE OF THE GREAT RARITIES OF AMERICAN STORECARDS

NY 924. R. TRESTED. A clean Very Fine specimen. This token is an American classic. It is an extremely rare card of one of our early die sinkers. Little is known about him, yet at one period he was about the only maker of dies in NYC. This card was probably published in the 1823-27 period. Trested died in 1829 and his business was purchased by Wright and Bale. Trested cut the dies for the Castle Garden token and also did the lettering on the Erie Canal Medal designed by Durnad and Wright.

This variety, with the eagle's head to the left, was unknown to Adams when he wrote his article on Trested in the 1913 Numismatist. The price realized for this token is likely to be the surprise of the show. Certain to be in the high four figures.

68.

Mass 85. RUETER & ALLEY. An exceptional lustrous AU. Perhaps the finest known of this rarity.

73.

NY 162. CLINTON LUNCH. Another very rare New York City storecard. Very Fine but weakly struck in parts. Sure to stimulate active bidding (\$450).

77. Pa. 334. R. LOVETT, JR. Gem toned Unc. Girard statue reverse.
78. Pa. 380. Atwood Pa 750G. 6th & 8th ST. LINES. VF/XF.
79. Pa. 398. PEALE'S MUSEUM. VF/XF. A number of minor edge nicks.
80. FEELY 6TH & CALLOWAY. . Rx. 2 Donkeys. WHEN SHALL WE THREE MEET AGAIN? An unlisted Philadelphia token. A similar piece sold as lot No. 93 in our sale last year for \$190.

86. 73/84. VF. "Double header" (\$60).
87. 91/435. German silver R9. AU. A bit weakly struck. A few small digs in the reverse lettering.

88.

89. 105/199. White metal. R8. Unc. Struck on a large flan.
90. 105/436. Brass R-10. Uncirculated. Obverse struck slightly off center.
91. 106/432 CN overstruck on a Brimelow storecard. XF.
92. 120/434. White metal. Toned AU/Unc. Baker 467 (\$100).

93.

121/Blank. White metal. Toned Unc. This is a major rarity for it is the only use of this Washington die on a patriotic. 121/Blank in brass is an R-10 as is this white metal example (\$1250).

94. 125/160. White metal. Toned Unc. All of the off-metal Lincolns are in great demand (\$300).

95.

128/289 struck over a copper nickel cent. Choice AU. Extremely rare. I can't recall the last time I've seen a copper nickel overstrike on a Lincoln token.

106. 260/447. White metal. Toned Unc. (\$150).

107. 229/360. Nickel. R8. Small spot on reverse. Uncirculated (\$125).

108. 337/350. Copper Nickel. Unc. R7 (\$125).

109. 474/475. Copper. Mostly red uncirculated. Reverse planchet defect at bottom does not detract appreciably. Rare, but especially so in this high grade.

110.

111. 516/511. Brass Uncirculated. Scarce and desirable Stephen Douglas token.

135. 600B-1a. Mostly red Unc. A choice piece from a scarce Indiana town. Ex Brand-K No. 658 (\$140).
136. 770A-4a. Choice mostly red Unc (\$85).

## IOWA

141. 150A-1a. Part red Unc. Rare state combined with choice condition (\$500).
- 142.

560A-1a. Mostly red Unc. Tiny dark spot on L or ribbon. Rare. Especially so nice.

## KENTUCKY

144. 150A-3a1. Red and brown Unc. R9.
145. 150C-1a. Brown Unc but weakly struck along with right obverse and left reverse borders.
146. 480B-6a. Red Unc. R8. A superb display token.

## MARYLAND

147. 60B-1b. Weakly struck. About XF for the piece. A few old and light obverse scratches do not detract at all. One writer has pointed out that city directories usually list clubs under the proprietor's name and that since this token doesn't list the proprietor, there is no way to look it up in the directories. For this reason, he argues, it cannot be positively verified that this token is not contemporary with the Civil War era. (\$350).

148.

560A-1b. Nice uncirculated. G. R. BOWMAN, HAGERS-TOWN, MD. One of the most sought-after of all Civil War merchant tokens. It has been many years since one of these was put up for auction. We anticipate the bidding to be at the \$2000 level — perhaps more.

## MASSACHUSETTS

149. NC-9a. Part red Unc. J.C. BOLEN storecard dated 1864. The treatment of this piece and NC-8a are inconsistent with that given the other larger Civil War storecards such as N&G Taylor from Philadelphia. (Pa 750V). For this reason, the catalog committee is considering renumbering these as Mass 760A-1a and 760B-1a respectively in the next edition of the storecard book.

## MICHIGAN

150.

40A-lfo. Uncirculated. Struck over an 1860 U.S. Dime! A J.L. Birdstuffer token (NY 630H-lfo) struck over a quarter brought \$4,400 in the Garrett IV Sale. ## Presidential and Political

*Most of the following presidential and political items are selections from the collection of the late Nathan Eglit. With the exception of Melvin Fuld, Nate Eglit was this century's most prolific writer in the field of exonumia. Although he is best known for his published works on the 1893, 1904 and 1933 Worlds Fairs, his greatest interest was in the political realm. He was an historian with a practiced eye for the common threads that history weaves throughout the centuries. Throughout this sale and our next, we will proudly present the historical relics which so intrigued Nate Eglit and which he collected with such passion.*

251.

George Washington Inaugural Button. DeWitt GW 1787-7, Albert WI-11A. LONG LIVE THE PRESIDENT. Replacement shank. VF/XF. Slightly uneven planchet with a minor flaw at 7:00.

252.

The American Beaver Medal. Baker 54, Julian CM-4. Obverse with conjoined busts of Washington & Franklin facing left. Reverse with allegorical depiction of the American beaver gnawing at the English oak, symbolic of the destruction of British authority in the American colonies. Struck in bronze with a plain edge. The Garrett IV specimen, with a number of obvious carbon spots, brought \$1400 in spirited bidding. This piece is a superior choice copper uncirculated example with no such defects.

253.

Manly Medal in Tin. Baker 61. The Manly medal is believed to be the first medal produced in America to honor George Washington. The medal was engraved by Samuel Brooks, supposedly from a portrait by Joseph Wright, who had earlier executed a portrait of Washington from life.

The Manly is one of the classic Washington medals belonging in every serious collector's cabinet. Curiously, tin impressions are rarer than either silver or bronze. Our specimen is a sharply struck extremely fine and is the variety where the publisher's name J. MANLY & C has been erased. The Garrett IV specimen, also an extremely fine, was crudely holed and plugged above the head. It brought \$800 in spirited bidding.

Washington Centennial Medal — New Jersey Historical Society. 61mm silver proof. Dies by Tiffany & Co. Douglas No. 1.

Ordered struck in 1889, but not actually struck at the US Mint until 1895, this is among the rarest of all 1889 Inaugural Centennial medals. Douglas seems to indicate that only 6 of these medals were struck in silver, however, this specimen is numbered 22 on the edge. Still, an extremely rare and desirable medal and the first we have seen at auction in recent times.

259. A duplicate of the above but in bronze. Choice Uncirculated. Serial number 47. Also extremely rare.

# Official Inaugural Medals of the Presidents of the United States

*What follows is a small but mighty selection of Official Inaugural Medals. For the past ten years, these medals have been the market leader in the American medal field. We expect new price records to be made with this selection for it contains many medals that are so rare that they have never seen the light of a public auction.*

329.

**1889 GOLD HARRISON-MORTON OFFICIAL INAUGURAL BADGE.** MacNeil BH 1889-1, 38mm. Gold.

Shortly after completing my book on inaugural medals and memorabilia, I was able to document the official nature of this medal. In the Official Programme of the Inaugural Ceremonies for 1889, in a paragraph entitled "Badges of Committees Connected with Ball" the following appears, "Red, white, blue, with diagonal stripes, as follows: Executive Committee, royal purple; Reception, black; Floor and Promenade, white; Press, cardinal; Banquet, dark blue; Carriages, pink; Music, olive; Comfort at Ball Room, dark brown; Ball Room Dress, light brown."

Although no mention is made of this badge having a medal attached to it, the fact that it is described as being red, white and blue and having a diagonal cross ribbon indicates to me that the described badge and BH 1889-3 are one and the same.

There are two known specimens in gold, both of which lack the CENTENNIAL top bar and the suspension ribbon. Apparently, the weight of the gold medal was too much for the fragile ribbon. The first gold medal to appear was sold at auction by Bowers and Ruddy and is now in the cabinet of a prominent West Coast collector. The second piece was sold by LaBarre Galleries in 1977 and realized \$3500 in a sale in which the major inaugural medal collectors did not participate. It is this piece, purchased by an East Coast coin dealer for investment, which we now offer. A lovely AU, we feel it is worth in the low five figure range.

**330. 1893 Cleveland Official Inaugural Badge.** MacNeil GC 1893-2.

A superb choice uncirculated example of this rare badge. Sharp blue CIVIC backribbon. The red, white and blue suspension ribbon is perfect. Such high quality is rarely encountered in these badges. Worth \$800+.

**331. 1897 McKinley-Hobart Official Inaugural Badge.** MacNeil WMcK 1897-3. Floor Committee.

A choice uncirculated specimen with an intact ribbon. Badges with complete ribbons are increasingly difficult to obtain.

332.

**1905 THEODORE ROOSEVELT OFFICIAL INAUGURAL MEDAL.**

Designed by Augustus Saint-Gaudens and modelled by Adolph A. Weinman, 125 medals were cast by Tiffany & Co. 74mm bronze. Sharp XF/AU. MacNeil TR 1905-2, OIM 2B74.

This medal is considered by many to be the most desirable of all the official inaugural medals. The combination of its rarity, one of our most popular Presidents, our foremost American sculptor and the renowned Tiffany & Co. is hard to resist. The sale of a Tiffany-Roosevelt has always been the occasion for numismatic headlines. We suspect that this time will be no exception.

The last auction record for this medal was in 1978 when Johnson and Jensen auctioned the A.A. Weinman specimen for a record

\$5,700.00 to a member of the Roosevelt family. We expect this record to be broken when the hammer falls.

A marvelous opportunity to acquire one of the most famous of American medals!

333. 1929 Herbert Hoover Official Inaugural Medal. MacNeil HCH 1929-2, OIM 7B70. 70mm bronze. Choice AU with just a tiny hint of rub on the cheek. The Hoover is one of the semi-key medals of the inaugural series. Always in demand and should bring around \$1200. **PLATE**

334.

**UNIQUE GOLD EISENHOWER CHARM.** MacNeil DDE 1953-7, OIM 13G18.

1953 was a year of inaugural medal experimentation. It was the first year that silver medals were sold to the public. Medallic Art Co. also considered making small charm replicas of the medal. Dies were made in four small sizes; 31, 24, 21 and 18mm. 18 Specimens were struck in gold of the 21mm size and unique strikes in gold were made of the 18 and 31mm sizes. In 1977, we auctioned one of the 21mm gold charms for \$2,450.00. We recently sold another for \$5,000.00. Our 18mm piece presents the advanced collector with a unique opportunity to obtain a singular addition to his collection. The charm has obviously been worn on a bracelet for it shows uniform handling marks. We would grade it VF/XF.

335. 1973 GERALD R. FORD OFFICIAL VICE PRESIDENTIAL PRESENTATION MEDAL. MacNeil GRF 1973-6, OVPIM-1B64. 64mm bronze in original plush leather pre-

sentation case.

Regular issue bronze medals in the 70mm size were sold to the public. Members of the Ford Inaugural Medal Committee and other important officials were presented with bronze medals in the 63mm size (from the dies used to strike the silver medals). This example is one of only ten struck. It is the first such medal to be publicly auctioned, although we know of one other having previously changed hands.

336. Gerald R. Ford Official Vice Presidential Inaugural Medal. 70mm Bronze. A common medal in this size, but ours is Serial Number 1! Uncirculated.

337. Gerald R. Ford Official Vice Presidential Inaugural Medal. 63mm antique silver. Uncirculated, Serial No. 1!

338. Gerald R. Ford Official Vice Presidential Inaugural Medal. Proof silver. Serial No. 1!

**ROCKEFELLER DIE TRIAL.**

An untrimmed 46.5mm lead die trial of the 38mm coin relief Rockefeller Vice Presidential medal. Both obverse and reverse are struck. Unusual and rare — only three such pieces are known to us.

**PRESENTATION SET OF THREE ROCKEFELLER VICE PRESIDENTIAL INAUGURAL MEDALS.** 38mm bronze, antique silver, proof silver. Encased in an inscribed custom presentation holder. Only 12 each of these medals were presented to the inaugural committee members and other high officials. When Senator Hatfield first showed Vice President Rockefeller models of the proposed high relief medals, Rockefeller rejected them immediately and said that he wanted only a medal in coin relief, about the size of a silver dollar, that he could carry in his pocket and give to friends and people that he met. After much discussion, Rockefeller finally relented and agreed to also have the high relief medals struck. When he finally saw the finished product, he was so pleased that he lost all interest in the coin relief medals and decided against ordering them. Medallion Art Company, which had made dies for the smaller medal, struck samples for the Vice President in silver and bronze and later, with the committee's permission, made a dozen each of these medals in bronze, antique silver, and proof silver and distributed them to Rockefeller, members of the committee, and others.

341. 1974 Nelson Rockefeller Official Vice Presidential Inaugural Medal. 70mm bronze. Relatively common, but this too is serial No. 0001.

# Medals Struck by the United States Mint

*With impetus from the Garrett Sale IV and the superbly catalogued sale of the Hank Spangenberg Collection by Carl Carlson of NASCA, U.S. Mint Medals are finally coming into their own. This is as it should be, for these medals are a veritable chronicle of American history. Even this aside, there is much to appeal to the collector instinct in all of us. There is artistic beauty: the work of many of our most celebrated sculptors is represented. There is a diversity of topical interests: collectors with an interest in our Presidents, military history, U.S. Mint, famous people, Indian Americana, expositions, etc. can all find something in their field to acquire. Finally, there is rarity. As Carl Carlson pointed out, "... a 'common' copper issue (before the sand-blast finished yellow bronzes began in 1901) would be an issue with a mintage of 200 or so — R-3 to R-4 on the Sheldon scale!"*

*Those of us who have had a long-time interest in this field are realizing more and more our debt to Bob Julian, author of "Medals of the United States Mint, The First Century 1792-1892". This is a volume which must be in the library of any serious numismatist!*

372. 1860 ASSAY Commission Medal. Bronze 33mm. Choice Uncirculated. Obverse head is from the hub by Longacre for the pattern half dollars of 1859. The Garrett specimen brought \$375.00.

373. 1868 Assay Commission Medal. Aluminum 33mm. Almost uncirculated. Obverse of Columbia standing by a pile of arms and other military accoutrements. The Garrett specimen brought \$300.00.

374.

1874 Assay Commission Medal. 33mm silver proof. Attractively toned. Obverse of Archimedes before a bathtub, symbolizing discovery of the specific gravity test for the purity of precious metals.

375.

1969 Assay Commission Medal. 58mm bronze. Frank Gasparo, Sc. Obverse portrait of Richard Nixon. Reverse, view of Philadelphia Mint. In original plush presentation box.

Although all assay medals are rare, the more recent ones, since they are often retained by their living owners, are among the most difficult to obtain.

376. James Monroe Indian Peace Medal. IP-10. Copper 51mm. Original Dies. Nice Uncirculated. **PLATE**

377. John Quincy Adams Indian Peace Medal. IP-13. Copper 51mm. Original Dies. Nice Uncirculated. A few minor field marks. **PLATE**

378. Set of three James Madison Indian Peace Medals. IP-5, 6 & 7. A beautiful matched set of medals in 76, 62 and 51mm sizes by John Reich. Each medal was struck with the original dies and is choice AU with just a touch of friction on the knuckles of the reverse. The medals are housed in a custom Capitol plastic holder. Ex-Eglit.

**379. RARE SILVER FILLMORE**  
1 of 122 minted

Millard Fillmore Indian Peace Medal. IP-31. Silver, 62mm. Obverse by Salathiel Ellis and reverse by Joseph Willson. The reverse design was a notable departure from prior peace medals. Instead of the standard Peace and Friendship reverse, this medal features the standing figure of an Indian in feathered headdress and blanket facing a white man in civilian clothes. An American flag forms the backdrop. The inscription *LABOR VIRTUE HONOR* is above.

Precise mintage figures are not available for the various sizes of these medals, however, Father Prucha has concluded that 162 were made and of these 40 were subsequently melted, leaving a net amount of 122.

This medal is heavily toned on the obverse in an attractive array of rainbow colors. The reverse is also toned in multicolors, but somewhat less so than the obverse. There are several minor edge dents and field marks. There is evident wear at the top of the hole where a silver ring at one time suspended the medal. All of this is consistent with the probability that it saw Indian use.

The Garrett Sale IV had a similar 62mm specimen with scratches in the left reverse field which realized \$6,500.00.

380. Abraham Lincoln Indian Peace Medal. IP-39. 62mm bronze. Nice Almost Uncirculated. Rare in this size, Julian notes that "Although the official mint list of medals for sale showed only the 3" specimen being offered to the public, letters from the various superintendents indicate that the smaller size was also available on occasion." **PLATE**

381. Andrew Johnson Indian Peace Medal. IP-41. 62mm. Copper. A Choice uncirculated with reddish mahogany bronze finish.

382. Andrew Johnson Presidential Medal. PR-13. 76mm copper. Choice Uncirculated. This medal is not really a part of the Mint's Presidential series for it was struck for a "political club" of Philadelphia, perhaps the Union League. In any event, it is a decidedly rare medal, only one example in gold and 50 copies in copper being struck in 1868. **PLATE**

383.

Horatio Gates. MI-2. 56mm copper. M. Gatteaux, Sc. Original Dies. Choice AU with some minor verdigris within the *COMITA AMERICANA* lettering. (The original obverse die has *CISTR* and *COMITA* repunched; reverse has *O* of *ACCEPTO* buried in the border, and develops a die break from the rim at 2:30 through *ON* in tip of flag.) Only 76 copper pieces struck from these dies.

384. Major General Winfield Scott — Commonwealth of Virginia medal. MI-27. 90mm. Copper, A magnificent medal by C.C. Wright. Reddish brown finish with a few tiny verdigris spots. Uncirculated with some light friction on the top of the high rim. One of 129 minted. **PLATE**

385. Oliver H. Perry. NA-17. 65mm copper. By Moritz Furst. Choice Uncirculated with some minor field marks. Lovely rainbow hued brown finish. Original dies by Furst with his name beneath the bust and a six pointed star after *FECIT* on the reverse. A slight buckling is noticeable on the obverse die. One of only 60 pieces struck from these dies.

386. Loss of the Brig Somers. NA-24. 56mm copper. C.C. Wright, Sc. Choice Unc. mahogany finish with some light verdigris within the last four letters of *AMERICANA*. One of only ninety struck.

387. Henry Clay Eloquent Defender Medal. PE-8. 76mm copper. C.C. Wright, Sc. A handsome portrait of Clay. Choice AU in a medium brown finish. The recent NASCA sale had an example housed in a black leather book type three layer case with maroon velvet liners, the inside back cover bearing a description of the striking of the medal, testimonials to its realistic portraiture and stating it was "Awarded as a Premium by the Cosmopolitan Art Association, January 31st, 1860".

388. John Trumbull PE-35. 64mm copper. Choice Uncirculated. One of the most perfect specimens we have ever seen. This was one of three medals struck for the American Art Union. Trumbull is most famous for his magnificent painting of the signing of the Declaration of Independence.

389.

Daniel Webster Medal. PE-37. 77mm copper. C.C. Wright, Sc. A nice medium brown uncirculated specimen with a few minor field spots and marks. Some light corrosion between the I&E of DANIEL.

Two reverse dies were used for the Webster medal. This is the die not pictured in Julian which is characterized by the lettering to either side extending further down into the field below the buildings than in the variety pictured in Julian.

390. National Convention of Cattlemen, St. Louis, 1884. CM-35. 51mm copper. Almost uncirculated and unlisted by Julian in this metal.

391.

Great Central Fair Medal in Silver. CM-44. 57mm silver proof in original presentation box.

Only four specimens were struck by the Mint in silver. An absolutely magnificent medal which will grace the most sophisticated collection.

392.

North Western Sanitary Fair. CM-45, King 501. Anthony Paquet, Sc. 57mm copper. A nice uncirculated specimen with minor rim nicks at 3:00. Probably one of the last medals struck as a perceptible die break runs through the best into both fields. **PLATE**

393. City College of New York. SC-17. 39mm copper. Almost uncirculated with a few minor field marks.

394. Connecticut State Agricultural Society. AM-13. 50mm silver. Awarded to F.D. JOHNSON/BRIDGEPORT/FOR WOOD'S/SPINDLE MACHINE/1857. Attractively toned. Almost Uncirculated. Only 20 struck in silver for 1857.

**PLATE**

395. Franklin Institute. 50mm silver. Christian Gobrecht, Sc. Awarded to B & A HOOLEY/PHILADA/PENNA/FOR/SILK CRAVATS/1845. Choice toned uncirculated. Gobrecht's fine portrait of Benjamin Franklin stands out on this marvelous medal. Struck with the original reverse as evidenced by a faint G at the lower left. **PLATE**

396. Massachusetts Charitable Mechanic Association. Christian Gobrecht, Sc. AM-33. 39mm silver. Choice almost uncirculated. TO/THE/PATTERSON, N.J./SILK CO/FOR SPECIMENS OF/MANTD SILKS/EXHIBITION OF/1844.

**PLATE**

397. Pennsylvania Institute. 44mm copper. Anthony Paquet, Sc. Julian says that this rare medal was struck only in 1858 and 1867. However, his compilation of mintage figures in the back of the book shows no information for 1858. In 1867, 15 copper specimens were struck. **PLATE**

398. Life Saving Medal Miniature. 22mm copper gilt miniature of LS-9, the Treasury Department First Class Life Savings Meda. With loop at top as made. Nice Uncirculated.

399. Adam Eckfeldt Medal. 51mm copper. Moritz Furst, Sc. Reddish Mahogany Uncirculated specimen. PLATE

400. Metis Shipwreck. 63mm copper. Choice Uncirculated. A pristine example of this beautiful medal by Anthony Paquet.

401.

Philadelphia Rifle Club. MK-30, Baker 360 (R8). 25mm silver. Almost uncirculated. Pierced as usual when inscribed. Julian states that the first medals were struck in 1870 and that prior to that the Club had used the Allegiance medals with the blank reverse (CM-3) as prizes. However, this medal is inscribed ED. ANSCHUTZ/PHILA/SEP. 28-29 1868!

## Medals of the American Numismatic Society

402. 1897 Grant's Tomb. 77mm. Chocolate bronze. Choice Uncirculated. 500 medals struck by Tiffany & Co. Features a strong virile portrait of Grant.

403. 1909 Hudson-Fulton Celebration. 64mm silver. Emil Fuchs, Sc. Almost uncirculated with several rim cuts which are only visible by looking down on the edge. In the original box of issue inscribed HUDSON FULTON BANQUET/SEPTEMBER 29, 1909.

404. Same, but the giant 100mm size. One of the most impressive looking of all American medals. Nice toned uncirculated example.

## Miscellaneous Medals

### A MATCHED PAIR OF CAST FRENCH MEDALLIONS HONORING GEORGE WASHINGTON AND BENJAMIN FRANKLIN.

409. 109mm bronze. Unsigned. High relief military bust of Washington facing left. GENERAL WASHINGTON in ornate script to either side, all within a depressed inner circle. A screw type holder is attached to the top rim for suspension. Some verdigris within the crevices of the bust. Circa 1800. Unlisted in Baker and in any other reference that I am aware of. An immensely desirable early Washington medallion.

PLATE

410. A high relief bust of Franklin facing right. DOCTEUR FRANCKLIN in ornate script to either side. (Note the erroneous spelling of Franklin.) All enclosed with a depressed inner circle. The portrait of Franklin is almost identical to that used by Sevres, which, in turn, may be based upon a bust of Franklin by Jean Caffieri (1725-92). The Washington and Franklin medals seem to be a matched pair. These two were purchased as such and the only other two examples I know of were also.
